**Q1 What are the strengths and weaknesses of your teaching assistant (discussion section leader, lab section leader, grader, or other assistant) as an instructor, and how might his or her teaching be improved?**

- Anna is an amazing teaching assistant, because she did more than assisting. She gave important ideas and I have to admit I would come to her more easily when I had an issue or when I was stuck with a specific method.
- Anna was an excellent TA in this course! She always had constructive feedback to offer on my work, and she was excellent and making some of the more erudite concepts expounded by Professor Humphreys and my advisor more understandable (as well as at pointing out when they may have been asking little bit too much). She was always responsive to questions and concerns I had, and her summaries of meetings really helped me to figure out the most important points of these discussions.
- She was very kind and made great comments!
- Included under teacher evaluation on previous page.

Anna was incredibly helpful, dedicated, and incredibly knowledgeable. She was invaluable in writing my thesis.

- Anna was a great TA, and I have absolutely nothing to add on which she might improve. She was helpful and responsive all of the time, and made the process of writing a thesis much less intimidating.
- Anna was incredible. She was quick to respond to emails for help, always free to meet and very helpful on the quant. side of things. I'd really recommend that she be given more teaching roles because she clearly has a gift for it!
- Absolutely outstanding. She was both incredibly intelligent and great at teaching. She was also so nice and selfless and met with students whenever they needed for however long they needed.

Her technical skills are particularly fantastic and she made me feel confident in my own abilities to work with R.
